## Father, daughter autograph Italian culture book

**LIKE FATHER, LIKE DAUGHTER** -- A physicist with the Air Force Research Laboratory's Directed Energy Directorate and her father autographed copies of their "Italian Culture, A View from America" recently at the University of New Mexico (UNM) bookstore. Sylvia Dorato, right, chief, Tactical Laser Systems Branch, and Dr. Peter Dorato, an electrical engineering professor with the university's Department of Electrical and Computer Engineering, co-authored the 320-page, guide to Italian culture. Peter Dorato, an UNM faculty member since 1976, has taught an Italian Culture class with its Division of Continuing Education since 1993. The book is based on his class notes and lectures. @
